

Word Bites Picture

Word Bites Picture is an ongoing project by Friend & Colleague, launched at the Storefront For Art & Architecture in 2013. Contemporary artists are asked to submit an artwork of their choice, without comment or background story. In response to the artwork, Katya Tylevich writes a 500-word fiction. The 'didactic' of each work is therefore an abstraction, related in atmosphere and tone. Participating artists: Dewey Ambrosino, Edgar Arceneaux, Michaël Borremans, Espen Dietrichson, Anton Ginzburg, Carl Hammoud, Todd Hido, Richard Misrach, Mi-Zo, and Dasha Shishkin. Previous participants include Vito Acconci and Otmar Thormann.

Friend & Colleague is Katya and Alexei Tylevich.
A more accurate name would be Sibling & Colleague.
They work together on editions and curated projects.
